Bulletin of the Atomic Scientists Index to Volume XXXVI, 1980

AUTHORS

Abrams, Herbert L., *Medical Consequences of Nuclear War,* Sept., 15.

Abrams, Nancy E., and Joel R. Primack, *Public and Technological Decisions,* June, 44–48.

Ahmad, Aqueil, *Science and Technology in India,* Nov., 38–41.

Alvarez, Robert, *Mancuso Affair,* Feb., 61–62; *Radiation Exposure Limits,* Nov., 58–59.

Arnold, Henry F., *Power Debates Requires Humane Vision,* Nov., 57.

Aspin, Les, *Judge Not by Numbers Alone,* June, 28–33.

Pacher, Robert F., *A Time to Find Solutions,* Feb., 46–47.

Bailey, Kathleen, *When and Why Weapons,* April, 42–45.

Barkenbus, Jack N., *Whither the (NPT) Treaty?,* April, 37–39.

Barnaby, Frank, *Reconciling War and Humanity,* Feb., 5–6; *War-Fighting Weapons for Europe,* March, 8–10; *'Nuclear Explosions Are Commonplace',* April, 9–11; *Maneuvers in the Indian Ocean,* May, 8–11; *CBW—An Unresolved Horror,* June, 8–10; *World Arsenals in 1980,* Sept., 9–14; *On the Second NPT Review Conference,* Sept., 20–21; *A Frangible Peace,* Oct., 6–7; *The NPT Review Conference—Much Talk, Few Results,* Nov., 7–8; *Scandinavian Initiatives,* Dec., 5–6.

Barnaby, Wendy, *The Swedish Referendum: 'Do away with it but not yet,'* June, 58–59.

Barnea, Joseph, *Is Nuclear Energy Necessary?,* Sept., 62–63.

Benard Cheryl, and Zalmay Khalilzad, *Energy: No Quick Fix for a Permanent Crisis,* Dec., 15–19.

Beyea, Jan, *Dispute at Indian Point,* May, 63–64; *Emergency Planning for Reactor Accidents,* Dec., 40–45.

Blacker, Coit Dennis, and Farooq Hussain, *European Theater Nuclear Forces,* Oct., 32–37.

Boskma, Peter, and Wim A. Smit, *Laser Fusion,* Dec., 34–39.

Boulding, Kenneth E., *So Little for Peace,* March, 1.

Brickman, Ronald, *Price of Success: Science and Technology in Europe,* Sept., 29–34.

Brooks, Harvey, *Energy: A Summary of CONAES Report,* Feb., 23–30.

Brown, Lester R., *"Going, going, gone"—at $3 a Gallon!,* March, 58.

Caldwell, Dan, *CTB: An Effective SALT Substitute,* Dec., 30–33.

Colglazier, William, and Paul Doty, *U.S. Debates a New Agency (ISTC),* May, 43–47.

Dean, Harry, and Judith Reppy, *Britain Buys the Trident,* Nov., 26–31.

De Volpi, A., T. A. Postol, G. E. Marsh, and G. S. Stanford, *Fallout from Progressive H-bomb,* April, 64–65.

Dollezhal, N., and Y. Koryakin, *Nuclear Power Engineering in Soviet Union,* Jan., 33–37.

Doty, Paul, and William Colglazier, *U.S. Debates a New Agency (ISTC),* May, 43–47.

Dumas, Lloyd J., *Human Fallibility and Weapons,* Nov., 15–20.

Eisemon, Thomas Owen, *Scientists in Africa,* Feb., 17–22.

Fainberg, Anthony, *Ground Rules for Power Debate,* March, 44–46.

Feld, Bernard T., *The Hands Move Closer to Midnight,* Jan., 1–3; *Setting Up the Next Round,* Feb., 4; *Cold Warriors Take Over,* March, 4; *Let's Agree—No First Use!,* May, 6–7; *Time to Speak Up,* June, 5; *If It Isn't One Thing It's Another!,* Sept., 4; *Madder than MAD,* Oct., 5; *Titan; Dangerous and Obsolete,* Nov., 4; *On the Morning of November 5,* Dec., 4.

Frank, Jerome D., *"If You Win, You Lose,"* Oct., 1.

Geneva Appeal, *Radioactive Waste in Europe,* Dec., 59.

Gilinsky, Victor, *The Impact of Three Mile Island,* Jan., 18–20.

Gomer, Robert, *Election Thoughts,* Oct., 11–12.

Gordon, Bruce, *Registering a Protest,* Oct., 64.

Green, Harold P., *On the Kemeny Commission,* March., 46–48.

Hiatt, Howard H., *Preventing the Final Epidemic,* Sept., 15–16.

Hogan, James P., *Enough Gloom and Doom,* Oct., 63–64.

Holdren, John P., *Environmental Liabilities of Nuclear Power,* Jan., 31–32.

Holzman, Franklyn D., *Dollars or Rubles: CIA's Military Estimates,* June, 23–27.

Hussain, Farooq, and Coit Dennis Blacker, *European Theater Nuclear Forces,* Oct., 32–37.

Iklé, Fred Charles, *Bombs and Reactors: The Nuclear Divide,* Jan., 38–42.

Isaacs, John David, *FY 1981 Military Programs,* June, 34–40.

Jacobsen, C. G., *Afghanistan: Ice and Fire,* March, 5–6.

Janouch, F., *Support for Sakharov,* Nov., 64.

Janowitz, Morris, and Charles Moskos, *Making the All-Volunteer Army Work,* June, 6–7.

Johnson, Giff, *Pacific Nuclear Waste Storage,* Nov., 62–63; *Paradise Lost,* Dec., 24–29.

Kaplan, Martin M., *What Can Pugwash Do?,* Nov., 13–14.

Kates, Robert W., *Matters of Truth,* May, 11–13.

Katz, Arthur M., *SALT and International Reconciliation,* May, 3.

Kauffman, Samuel, *Clarification Needed,* Dec., 58.

Kennan, George F., *Imprudent Response to the Afghan Crisis?,* April, 7–9.

Keyfitz, Nathan, *Crossroads for Science,* June, 7–8.

Khalilzad, Zalmay, *Pakistan and the Bomb,* Jan., 11–16.

Khalilzad, Zalmay, and Cheryl Benard, *Energy: No Quick Fix for a Permanent Crisis,* Dec., 15–19.

Kistiakowsky, George B., *Trinity—A Reminiscence,* June, 19–22.

Klitgaard, Robert E., *Support for Young Investigators,* Dec., 20–23.

Kneale, George W., *On Cancer and Radiation,* Nov., 59–60.

Komanoff, Charles, *U.S. Nuclear Plant Performance,* Nov., 51–54.

Koryakin, Y., and N. Dollezhal, *Nuclear Power Engineering in Soviet Union,* Jan., 33–37.

Lago, Don, *A Gust of Madness,* Nov., 50.

Lamarsh, John R., *China's Nuclear Power Program,* May, 28–31; Nov., 62.

Lamarsh, John R., and Marvin M. Miller, *Weapons Proliferation and Foreign Students,* March, 25–30.

Lanouette, William J., *Kemeny Commission Report,* Jan., 20–24.

Lewis, Howard J., *Letters from Washington,* April, 13–16; May, 15–18.

Lifton, Robert Jay, *Prevention of Nuclear War,* Oct., 38–43.

Manganyi, N. E., *The North-South Dialogue: Who Writes the Script?,* Dec., 12–14.

Marsh, G. E., G. S. Stanford, A. De Volpi, and T. A. Postol, *Fallout from Progressive H-bomb,* April, 64–65.

Martin, John, *On Cancer and Radiation,* Nov., 59–60.

Members of Congress for Peace through Law, *On Presidential Directive #59,* Nov., 63–64.

Miller, Marvin M., and John R. Lamarsh, *Weapons Proliferation and Foreign Students,* Mar., 25–30.

Moravcsik, Michael J., *Preparing the New Pioneers,* Dec., 56–57.

Moskos, Charles, and Morris Janowitz, *Making the All-Volunteer Army Work,* June, 6–7.

Moss, Norman, *A Global Code for Nuclear Fuel,* Feb., 8–11.

Mulliken, Robert S., *The Cold War,* Oct., 8–10.

Muskat, Morris, *Illusions of Decontrol,* Feb., 59–61.

Myrdal, Alva, *Europe As Hostage of the Superpowers?,* April, 4–6.

Nadis, Steven J., *Time for a Reassessment,* Feb., 37–44.

Nash, Henry T., *Bureaucratization of Homicide,* April, 22–27.

National Academy of Science of United States, Council of, statement on *U.S.-Soviet Exchange Programs,* Oct., 59–60.

Nations, James D., and Ronald B. Nigh, *Tropical Rainforests,* March, 12–19.

Neal, Fred Warner, *Afghanistan: A Created Crisis,* Oct., 10–11.

Nelkin, Dorothy, and Michael Pollak, *French and German Courts on Nuclear Power,* May, 36–42.
Nero, Anthony V., Jr., *Beyond the Light Water Reactor,* Feb., 31–37.
Nigh, Ronald B., and James D. Nations, *Tropical Rainforests,* March, 12–19.
Nitze, Paul H., *"No Longer a Choice,"* Sept., 6–8.
O'Brien, John N., *Progressive Case,* Oct., 60–61.
Osgood, Charles E., *The GRIT Strategy,* May, 58–60.
Paine, Christopher E., *MX: The Public Works Project of the 1980s,* Feb., 12–16; *Pershing II: The Army's Strategic Weapon,* Oct., 25–31.
Patterson, Walter C., *Don't Just Do Something—Stand There!,* Feb., 7–8; *The Open University Tackles Control of Technology,* March., 56–57; *Future Imperfect,* April, 11–13; *The Nuclear Civil War,* May, 13–14; *Breeders Interbreeding,* Nov., 5–7.
Peranio, Anthony, and Ira J. Winn, *Israel's Energy Dilemma,* April, 57–60.
Physicians for Social Responsibility, *Danger of Nuclear War,* April, 16.
Polanyi, John C., *Dangers of Nuclear War,* Jan., 6–10.
Pollak, Michael, and Dorothy Nelkin, *French and German Courts on Nuclear Power,* May, 36–42.
Postol, T. A., G. E. Marsh, G. S. Stanford, and A. De Volpi, *Fallout from the Progressive H-bomb,* April, 64–65.
President's Commission on the Accident at Three Mile Island, Report of, *The Need for Change: The Legacy of TMI,* Jan., 24–31.
Primack, Joel R., and Nancy E. Abrams, *The Public and Technological Decisions,* June, 44–48.
Prince, David C., *First Use: Already on the Books,* Dec., 59.
Pugwash Conference, *Pugwash 1980,* Nov., 9–14.
Pugwash Council, *Second (NPT) Review Conference,* April, 40–41.
Ramesh, Jairam, and Jorge A. Sabato, *Atoms for the Third World,* March, 36–43.
Raskin, Marcus G., *Price of Defense,* Oct., 57–58.
Ray, Joel, *Citizens Protest High Power Lines,* April, 28–30.
Remes, David H., and Laurence H. Tribe, *Some Reflections on The Progressive Case: Publish and Perish?,* March, 20–24.
Reppy, Judith, and Harry Dean, *Britain Buys the Trident,* Nov., 26–31.
Roling, Bert V. A., *The Sin of Silence,* Nov., 10–13.
Ross, Marc H., and Robert H. Williams, *A Fuel Conservation Strategy,* Nov., 1, 56.
Rothlat, Joseph, *Mancuso Affair,* Feb., 62–63.
Rydberg, Jan, *Sweden's Nuclear Debate,* Sept., 59–61.
Sabato, Jorge A., and Jairam Ramesh, *Atoms for the Third World,* March, 36–43.
Salaff, Stephen, *Help for the* Hibakusha, April, 61–63; *Plutonium Connection: Energy and Arms,* Sept., 18–23.
Salam, Abdus, *From Toledo to Trieste—Renewing our Commitment,* Sept., 35–38.
Saperstein, Alvin M., *A Non-economist Looks at Inflation,* May, 61–63.
Schipper, Lee, *Conservation Is Here,* Feb., 55–59.
Schoijet, Mauricio, *Who's Afraid of a Vector?,* June, 60–62.
Schultz, Theodore W., *Economics of Being Poor,* Nov., 32–37.
Science Council of Japan, *Statement Commemorating 25th Anniversary of Russell-Einstein Manifesto,* Oct., 59.
Seitz, Frederick, *Reflections on UNCSTD,* May, 48–51.
Shapley, Deborah, *SALT Is Down, But Is It Out?,* March, 6–7.
Shore, Lloyd G., *Can Nuclear Weapons Be Abolished?,* Dec., 6–7.
Sieghart, Paul, *Guarding Nuclear Materials and Civil Liberties,* May, 32–35.
Skinner, L. Walter, *On China's Nuclear Power Program,* Nov., 60–61.
Smil, Vaclav, *On Renewable Energies,* Oct., 56–57.
Smit, Wim A., and Peter Boskma, *Laser Fusion,* Dec., 34–39.
Smith, Alice Kimball, and Charles Weiner, *Robert Oppenheimer: Letters and Recollections,* May, 19–27; *The Los Alamos Years,* June, 11–17.
Snow, Donald M., *MX: Maginot Line of the 1980s,* Nov., 21–25.
Solo, Robert A., *Saga of Synthetic Rubber,* April, 31–36.
Sørensen, Bent, *Anywhere but Here!,* April, 55–56; *On Renewable Energies,* Sept., 55–56.
Spurgeon, David, *Agroforestry,* Jan., 58–61.
Stanford, George S., *Will We Perish If We Publish?,* June, 62–64, *A Legalistic Game?,* Nov., 60.
Stanford, G. S., A. De Volpi, T. A. Postol, and G. E. Marsh, *Fallout from the Progressive H-bomb,* April, 64–65.
Sweet, William, *Rating Carter on Proliferation,* Jan., 56–57.
Thomas, Urs P., *Is Nuclear Energy Necessary?,* Dec., 58.
Thomasson, W. A., *The Citizens Party 1980. . .,* Sept., 25–28; *The Candidates 1980. . .,* Oct., 13–19.
Thompson, Gordon, *The Iraqi Reactor Controversy,* Nov., 57.
Thorsson, Inga, *Disavowing Violence,* Sept., 1.
Tribe, Laurence H., and David H. Remes, *Some Reflections on The Progressive Case: Publish and Perish?,* March, 20–24.
Tsipis, Kosta, *Scientists and Weapons Procurement,* June, 41–43.
Vance, Cyrus R., *Unmasking Myths,* Sept., 5–6.
von Hippel, Frank, *NRC and Thyroid Protection—One Excuse after Another,* Oct., 44–46.
Von Weizsäcker, C. F., *European Armaments in the 1980s,* Dec., 8–11.
Weinberg, Alvin M., *Is Nuclear Energy Necessary?,* March, 31–35; Sept., 63–64.
Weiner, Charles, and Alice Kimball Smith, *Robert Oppenheimer: Letters and Recollections,* May, 19–27; *The Los Alamos Years,* June, 11–17.
Weisskopf, Victor F., *The Overwhelming Priority,* Feb., 1; *The Double-edged Sword Called Technology,* April, 17–21.
Weisskopf, Victor F., and Robert R. Wilson, *American-Soviet Scientific Exchanges: More Important Than Ever,* June, 1.
Welch, Bruce L., *Deception on Nuclear Power Risks: A Call for Action,* Sept., 50–54.
Williams, Robert H., and Marc H. Ross, *A Fuel Conservation Strategy,* Nov., 1, 56.
Wilson, Richard, *Soviet Scientists on Nuclear Power,* Feb., 44–46.
Wilson, Robert R., and Victor F. Weisskopf, *American-Soviet Scientific Exchanges: More Important Than Ever,* June, 1.
Winn, Ira J., and Anthony Peranio, *Israel's Energy Dilemma,* April, 57–60.
Wolfe, Bertram, *Could America's Nuclear Policies Be Counterproductive?,* Jan., 43–48.
Yarmolinsky, Adam, *Keeping Tabs on R&D,* Nov., 49–50; Dec., 55–56.
Yost, Charles W., *National Security Revisited,* Oct., 20–24.

Books reviewed by

Basile, Paul S.
Nuclear or Not: The Choices for Our Energy Future edited by Gerald Foley and Ariane van Buren, Royal Institution Forum;
Coal: Bridge to the Future, World Coal Study, Carroll L. Wilson, Project Director;
Energy: The Next Twenty Years, Ford Foundation and Resources for the Future Study, Hans H. Landsberg, Chairman;
Energy Global Prospects 1985–2000, Workshop on Alternative Energy Strategies Report, Carroll L. Wilson,
Nuclear Power: Issues and Choices, Nuclear Energy Policy Study Group, Ford Foundation and MITRE Corp.; and
U.S. Energy Demand: Some Low-Energy Futures, Committee on Nuclear and Alternative Energy Systems (CONAES) Demand and Conservation Panel, Nov., 43–47.

Briggs, Asa
Science in Victorian Manchester by R. H. Kargon, June, 52.

DeForest, Paul H.
Controversy: The Politics of Technical Decisions edited by Dorothy Nelkin; and
Science Controversies and the Politics of Equal Time by Dorothy Nelkin, Apr., 51.

Dowling, John
Reel Change: A Guide to Films on Appropriate Technology by Diane Garey and Larry Hott, Feb., 54.

Eklof, Ben
Russia and the United States by Nikolaii V. Sivachev and Nikolai N. Yakovlev, and
Soviet Perceptions of the United States by Morton Schwartz, Dec., 46–51.

Forman, Paul
Albert Einstein, 1879–1955. A Centenary Exhibit of Manuscripts, Books, and Portraits Selected from the Humanities Research Center Collections by Albert C. Lewis;
Albert Einstein: The Human Side. New Glimpses from his Archives edited by Helen Dukas and Banesh Hoffmann;
Albert Einstein Autobiographical Notes translated and edited by Paul A. Schilpp;
Albert Einstein in Berlin 1918–1933, Akademie der Wissenschafter der DDR;
Albert Einstein's Theory of General Relativity edited by Gerald E. Tauber;
Aus Meinen Spaten Jahren by Albert Einstein, 2d edition;
Einstein: A Centenary Volume edited by A. P. French;
Einstein. Sein Leben und Seine Zeit by Philipp Frank;
Einstein 1879–1979. Exhibition, Jewish National and University Library;
Einstein privat. Herta W. erinnert sich an die Jahre 1927 bis 1933 by Friedrich Herneck;
Gedaechtnisausstellung zum 100. Geburtstag von Albert Einstein, Otto Hahn, Max von Laue, Lise Meitner, Physik Kongress Ausstellungs und Verwaltungs GMbH; and
Images of Einstein: A Catalog compiled by Joan N. Warnow, Mar., 49–55.

Jacobsen, Carl
Asia's Nuclear Future edited by William Overholt;
The Military Equation in Northwest Asia by Stuart E. Johnson and Joseph A. Yager;
Strategy and Security in Northeast Asia by Richard B. Foster, James E. Dorman, Jr., and William M. Carpenter, May, 51–53.

Karas, Thomas H.
The War Game: A Critique of Military Problem Solving by Garry D. Brewer and Marvin Shubik, Feb., 49.

Kincade, William H.
The Contaminant by Leonard Reiffel, June, 50;
Politics of Arms Control: The Role and Effectiveness of the U.S. Arms Control and Disarmament Agency by Duncan L. Clarke, Oct., 50–54.

Lerch, Irving A.
The Third World War, August, 1985 by General Sir John Hackett and other NATO generals and advisors, Jan., 50–52.

Parker, Frank L.
Nuclear Disaster in the Urals by Zhores A. Medvedev, Apr., 49–50.

Peierls, Rudolf
Energy from Heaven and Earth by Edward Teller, May, 53–54.

Reader, Mark
Six Billion People: Demographic Dilemmas and World Politics by George Tapinos and Phyllis T. Piotrow; and
World Futures: The Great Debate edited by Christopher Freeman and Marie Jahoda, Feb., 48–49.

Sawyier, Fay Horton
The Limits of Scientific Inquiry edited by G. Holton and R. S. Morison, Apr., 48.
Solo, Robert A.
Technology and East-West Trade by Office of Technology Assessment, Oct., 48–50.
Steiner, Arthur
The Nuclear Question: The United States and Nuclear Weapons 1946 through 1976 by Michael Mandelbaum, Sept., 42–45.
Thomasson, W. A.
The Biology of Peace and War: Men, Animals, and Aggression by Irenaus Eibl-Eibesfeldt, Feb., 52;
Cloning: A Biologist Reports by Robert Gilmore McKinnell, Feb., 52;;
Colonies in Space by T. A. Heppenheimer, June, 53–54;
A Double Image of the Double Helix. The Recombinant DNA Debate by Clifford A. Grobstein, Feb., 53;
On Human Nature by Edward O. Wilson, Feb., 50;
Living in Outer Space by George S. Robinson, June, 54–55;
A Nation of Guinea Pigs. The Unknown Risks of Chemical Technology by Marshall S. Shapo, Feb., 51;
The Pendulum and the Toxic Cloud. The Course of Dioxin Contamination by Thomas Whiteside, Jan., 54;
The Recombinant DNA Debate by Stephen P. Stich and David A. Jackson, Feb., 53;
Report to the President by The Toxic Substances Strategy Committee, Sept., 42;
Space Trek: The Endless Migration by Jerome Clayton Glenn and George S. Robinson, June, 55;
Toward Distant Suns by T. A. Heppenheimer, June, 53–54;
Worlds Beyond: The Everlasting Frontier by Larry Geis and Fabrice Florin, June, 53–55.

Todd, W. Murray
Faith, Science and the Future edited by Paul Abrecht, Feb., 48.

Ventura, Arnoldo K.
Progress for a Small Planet by Barbara Ward, June, 50–52.

Wilson, Jane S.
The Uranium People by Leona Marshall Libby, Jan., 53–54.

Wilson, Richard
Frozen Fire by Lee Niedringhaus Davis, Sept., 39–42.

Yarmolinsky, Adam
Can Organizations Change? Environmental Protection, Citizen Participation, and Corps of Engineers by Daniel A. Mazmanian and Jeanne Neinaber, Sept., 46.

Films reviewed by

Barnaby, Wendy
Nuclear Nightmares: The Wars That Must Never Happen produced by Peter Batty, April, 52–53.

Dowling, John
An Act of Congress produced by Charles Guggenheim, March, 55.
An American Ism: Joe McCarthy produced and directed by Glen Silber, May, 57.
Avital produced by Mordechai Gal and Tal Larish, Dec., 52.
Battleground Washington: The Politics of Pressure produced by Phil Lewis for ABC-News, Oct., 55.
Booom! produced by the United Nations, June, 57.
Clouds of Doubt produced by KUTV, Dec., 52–53.
Coal: Solution or Pollution? produced by Ryall Wilson, Sept., 48.
Einstein produced by Patrick Griffin for NOVA, March, 55.
The End of the Rainbow produced by Brian Kaufman for NOVA, Feb., 54.
Fable Safe produced by Sumner Glimcher, Oct., 56.
Growth Dilemma produced by Richard Whitacher and Christopher Aikenhead, March, 55.
Here Today...Here Tomorrow. Radioactive Waste in America produced by Jeffrey Kirsch for KPBS-TV series *Synthesis,* Nov.,48.
Hiroshima/Nagasaki, August 1945 produced by Erik Barnouw and Paul Ronder, Oct., 55–56.
John, Mary, MIRV, and MARV: The Arms Race and the Human Race produced by Institute for World Order, Feb., 54.
The Killing Ground produced by Tom Priestly and Steve Singer for ABC, Nov., 48.
Manoeuvre produced by Frederick Wiseman, Oct., 55.
The Medical Implications of Nuclear Energy, videotape of address by Helen Caldicott, Sept., 48.
No Act of God produced by Ian Ball and Sidney Goldsmith for National Film Board of Canada, April, 54.
A Play Half-Written—The Energy Adventure produced by Bill Stokes Productions for Atomic Industrial Forum, April, 53–54.
Reflections: Margaret Mead produced by Tim White for the U.S. Information Agency, Dec., 53.
Sentenced to Success produced by Cine Information Documents, France, Dec., 52.
South Africa: The Nuclear File produced by Peter Davis, May, 57.
We've Always Done It This Way produced by ATV TV (England), Feb., 54.

Flannery, William
Oil and American Power produced by NBC News, May, 56–57.

Guertner, Gary L.
Protection in the Nuclear Age produced by Trio Productions for Federal Emergency Management Agency, June, 56–57.

Schroeer, Dietrick
A is for Atom, B is for Bomb: A Portrait of Dr. Edward Teller produced by Brian Kaufman for NOVA, May, 55–56.

SUBJECT

Afghanistan, U.S. reaction to Soviet invasion of, March, 4; 5; April 7–9; May, 11–12 *passim,* June, 7–8; 8–10; Oct., 10–11.

Africa, scientists in, Feb., 17–22.

Agriculture: trees and, Jan., 58–61; Third World and economics of, Nov., 32–37.

Agroforestry, Jan., 58–61.

Albert Einstein Peace Prize, Alva Myrdal recipient of first, May, 7.

Argentina, teaching of mathematics banned in, June, 60–62.

Arms control, laser fusion and treaties on, Dec., 34–38.

Arms Control Association, March, 63.

Arms race: psychodynamics of, May, 58–60; SIPRI report on, Sept. 9–14.

Atoms for Peace program, reinvigoration proposed, Jan., 43–48.

Bulletin clock: hands moved from 9 to 7 minutes before midnight, Jan., 1–3; history of, Jan., 2–3;

Carbon dioxide: CONAES on problem of, Feb., 27–28; long-term outlook for fission and, March, 31–35 *passim.*

China, nuclear power program of, May, 28–31; Nov., 60, 62.

CIA, military estimates of, June, 23–27.

Citizens Party, energy, defense and foreign policy platform of, Sept. 25–28.

Climatic regimes, March, 34.

Cold war, in midst of, Oct., 8–10.

Committee on Nuclear and Alternative Energy Systems (CONAES), summary of report of, Feb., 23–30.

Coprocessing, uranium and plutonium, Sept., 18–23 *passim.*

Council for Science and Society (U.K.), energy policy report of, Feb., 7–8.

Defense, price of, Oct., 57–58.

Denmark, reaction to NATO decision to deploy Pershing II and cruise missiles in Europe, April, 55–56.

Disarmament: European nuclear campaign for, Dec., 1, 54; 5–6; Pugwash appeal to smaller nations on, Nov., 10–13 *passim.*

Draft: Amherst students on, May, 65; making all-volunteer Army work, June, 6–7.

Electricity, health risks of high voltage power lines, April, 28–30.

Energy: analyses, April, 11–13, Nov., 43–47; CONAES report on, Feb., 23–30; domestic oil prices, Feb., 59–61; March, 58; projected supply patterns in 2030, March, 34; regaining control of system, Nov., 1, 56; renewable sources of, Sept. 55–57; U.S. alternatives to 2010, Feb., 23–30.

Energy alternatives, long-term outlook for fission and, March 31–35 *passim.*

Energy conservation: CONAES scenarios, Feb., 57; potential of, Feb., 23-30 *passim;* status of, Feb., 55–59; strategy for, Nov., 1, 56.

Energy crisis: crossroads for science and, June, 7–8; future imperfect, April, 11–13.

Energy debate, technology in industrial society and, Dec., 15–20.

Energy policy: fuel conservation strategy, Nov., 1, 56; Israel's dilemma on, April, 57–60; U.K. report on principles and procedures for making, Feb., 7–8.

Environment, destruction of tropical rainforests and, March, 12–19.

Europe: dangers of armaments in 1980s for, Dec., 8–11; as hostage of superpowers, April, 4–6; NATO and Soviet modernization of missiles in, Oct., 25–37; war-fighting weapons for, March, 8–10.

European Nuclear Disarmament (END) campaign, Dec., 1, 54; 5–6 *passim.*

Fast breeder reactors: advanced converters vs., Feb., 27; breeders interbreeding, Nov., 5–7; development of, Sept., 18.

First Amendment, science and, March, 20–24. See also *Progressive et al., The United States vs.*

Foreign policy, choices before us, Sept., 5–8.

Forests, destruction of world's tropical rain, Jan., 58–61; March, 12–19.

France, nuclear power and courts in, May, 36–42 *passim.*

Fusion, laser: circumventing arms control treaties and, Dec., 34–38.

Germany, nuclear power and courts in, May, 36–42 *passim.*

Hibakusha (A-bomb received person), help for, April, 61–63.

Hiroshima: help for survivors of, April, 61–63; psychic numbing of survivors of, Oct., 38–43 *passim;* stages in permanent encounter with death in, Oct., 38–43 *passim.*

Homicide, bureaucratization of, April, 22–27.

Human fallibility, nuclear weapons and, Nov., 15–20.

Independent Commission on Disarmament and Security Issues (Palme Commission), Dec., 5–6.

India: Pakistan's response to nuclear explosion of, Jan., 11–16 *passim;* science and technology in, Nov., 38–41.

Indian Ocean: maneuvers in, May, 8–11; nuclear explosion in atmosphere over, April, 9–11.

Inflation, a non-economist looks at, May, 61–63.

Institute for Scientific and Technological Cooperation (ISTC), purpose and history of, May, 43–47.

International Nuclear Fuel Cycle Evaluation (INFCE), report of, Feb., 8–11.

Iraq, French sale of reactor to, Nov., 57.

Israel, energy dilemma of, April, 57–60.

Kemeny Commission: critique of report of, March, 46–48; report of accident at Three Mile Island, Jan., 20–31.

Kenya, science and technology in, Feb., 17–20.

Land management, agroforestry as system of, Jan., 58–61.

Laser fusion, circumventing arms control treaties and, Dec., 34–38.

Marshall Islands. *See* Micronesia.

Micronesia: nuclear waste storage in, Nov., 62–63; Pacific paradise or nuclear nightmare, Dec., 24–29.

Middle East, a frangible peace in, Oct., 6–7. *See also* Persian Gulf.

Military: language of defense world, April, 22–27; making all volunteer army work, June, 6–7.

Military expenditures: CIA's estimates of Soviet, June, 23–27; U.S. FY 1981, June, 34–40.

Military Sector, June 1980:
—Dollars or rubles: CIA's military estimates of, Franklyn D. Holzman, June, 23–27;
—Judge not by numbers alone, Les Aspin, June, 28–33;
—FY 1981 military programs, John David Isaacs, June, 34–40;
—Scientists and weapons procurement, Kosta Tsipis, June, 41–43.

Military spending, new strategy for, Oct., 57–58.

MX (missile experiment) mobile missile system: asymmetry of U.S. and Soviet ICBM forces and, Nov., 21–25; legal, economic, and environmental implications of, Feb., 12–16; as Maginot line of 1980s, Nov., 21–25; as public works project of 1980s, Feb., 12–16; vulnerability of U.S. silo-based missile force and, Nov., 21–25 *passim.*

National security, real military threats to survival and, Oct., 20–24.

NATO: European theater nuclear forces, Oct., 32–37; modernization program and United Kingdom, Nov., 26–31; Denmark's reaction to modernization program, April, 55–56; response to Soviet SS-20, Oct., 25–31; war-fighting weapons for, March, 8–10.

Nigeria, science and technology in, Feb., 17–22.

Non-Proliferation Treaty (NPT), 1980 review conference, Sept., 20–21; Nov., 7–8.

Nuclear accidents: emergency planning for, Dec., 40–45; thyroid protection strategy for, Oct., 44–46.

Nuclear energy: alternative systems, Feb., 31–37; CONAES report, Feb., 23–30; fission and conversion, Feb., 32–33; hazards and benefits of, March, 44–46; in Israel, April, 57–60; misplaced concern over problems of, Feb., 1; necessity of reliance on, March, 31–35; Sept., 62–64; Soviet scientists on, Feb., 44–46; in Soviet Union, Jan., 33–37; for Third World, March, 36–43; time to find solutions, Feb., 46–47; in U.S. in 1980, Jan., 17–37.

Nuclear energy debate: dispute at Indian Point, May, 63–64; in France, May, 36–42 *passim;* in Germany, May, 36–31 *passim;* ground rules for, March, 44–46; impact of Three Mile Island and, Jan., 17–37; in Sweden, June, 58–59; Sept., 59–61.

Nuclear explosions: are commonplace, April, 9–11; Indian Ocean, April, 9–11.

Nuclear false alerts, Sept., 4; Nov., 15–19.

Nuclear fuel: global code for, Feb., 8–11;

INFCE report on, Feb., 8–11; Sept., 19–23 *passim;* once-through, thorium-uranium, and uranium-plutonium cycles, Feb., 32–34.
Nuclear industry, viability of, May, 13–14.
Nuclear materials, guarding civil liberties and, May, 32–35.
Nuclear reactors: accident at Three Mile Island, Jan., 17–32; alternative, Feb., 31–37; beyond the light water, Feb., 31–37, bombs and Jan., 38–42; capacity factors through June 1980, Nov., 53; impact of plant shutdowns, Feb., 37–44 *passim;* Iraq and, Nov., 57; in Soviet Union, Jan., 33–37; U.S. nuclear plant performance, Nov., 51–54. *See also* Fast breeder reactors.
Nuclear reactor safety, misleading use of AEC 1975 *Reactor Safety Study* on, Sept., 50–54.
Nuclear war: danger of by year 2000, Jan., 6–10; ethics of planning for, April, 22–27; medical consequences of, Sept., 15–16; prevention of, Oct., 38–43; Pugwash on danger of, Nov., 9.
Open university, tackles control of technology, March, 56–57.
Oppenheimer, Robert, letters and recollections of, May, 19–27; June, 11–17.
Pakistan, nuclear weapon capability of, Jan., 11–16.
Palme Commission, Dec., 5–6.
Pershing II missile: Army's strategic weapon, Oct., 25–31, trajectory and maneuvering capability of, Oct., 29
Persian Gulf, maneuvers in, May, 8–11.
Physicians for Social Responsibility: letter to President Carter and Chairman Brezhnev, April, 16; symposium on medical consequences of nuclear war, Sept., 15–16; Oct., 38–43.
Pomerance, Josephine Wertheim, 1911–1980, Oct., 7.
Poverty, economics of being poor, Nov., 32–37.
Presidential directive #59, Nov., 63–64.
President's Commission on accident at Three Mile Island, Jan., 20–31.
Progressive et al., The United States vs.; fallout from, April, 64–65; publish *and* perish, March, 20–24; June, 62–64; Oct., 60–61.
Proliferation, nuclear: Atoms for Peace and, Jan., 43–48 *passim;* evaluating a nation's nuclear explosives capability. April, 42–47; foreign students and, March, 25–30; future of NPT regime, April, 37–45; measures to strengthen NPT regime, Sept., 20–21; NPT review conference, April, 40–41; Nov., 7–8; Pakistan and, Jan., 11–16; Pugwash on NPT review conference, April, 40–41; rating Carter on, Jan., 56–57; role of U.S. and, Jan., 43–48; U.S. actions and strategy, April, 37–39; when and why weapons, April, 42–45.
Public policy, young investigators and, Dec., 21–23.
Radiation, low-level ionizing: cancer and, Feb., 61–63; Nov., 59–60; exposure limits for workers, Nov., 58–59.
Research, young investigators and public policy, Dec., 21–23.
Research & Development; keeping tabs on, Nov., 49–50; Dec., 55–56.
Rubber, synthetic, saga of World War II program on, April, 31–36.
Sakharov, Andrei, support of scientists sought for, Nov., 64.
SALT: comprehensive test ban treaty and, Dec., 30–33; congressional consideration of, March, 6–7; European initiative sought for SALT III, April, 4–6 *passim;* international reconciliation and, May, 3; limits, Sept, 11.
Science, crossroads for, June, 7–8.
Science and scholarship: young investigators and public policy, Dec., 21–23.
Science and society: citizens protest high voltage power lines, April, 28–30; in Nigeria and Kenya, Feb., 17–22; public and technological decisions, June 44–48.
Science and technology: developing countries and development of, Sept., 35–38; double-edged sword called technology, April, 17–21; in India, Nov., 38–41, keeping tabs on R&D, Nov., 49–50; Dec., 55–56; open university tackles control of, March, 56–57; policy in Europe, Sept., 29–34; reflections on UNCSTD, May, 48–51; transfer of, May, 43–47; U.S. debates new agency, May, 43–47.
Scientific exchanges, U.S.-Soviet, Oct., 59–60.
Solar energy: expansion of use of, Feb., 26–27; faith and technology in, Dec., 15–20; some parallels between acceptance of nuclear energy in 1950s and solar energy in 1980s, Dec., 15–20; in Sweden, March, 59–60.
Soviet Union: CIA's military estimates of, June, 23–27; cost comparison of U.S. and Soviet ICBM silo kills, June, 29; effectiveness of strategic forces of, June, 28–33; modernization of European missiles, Sept., 27; nuclear power engineering in, Jan., 33–37; Sakharov case, Nov., 64; scholarly and political community in, Dec., 46–51; scientific exchanges with U.S. and, June, 1; scientists on nuclear power, Feb., 44–46; Sverdlovsk incident, June, 8–10 *passim.*
Space colonies, role of science and, Dec., 56–57.
Stockholm International Peace Research Institute, report of world arsenals in 1980, Sept., 9–14.
Sweden: feasibility of solar economy in, March, 59–60; nuclear debate in, Sept., 59–61; nuclear referendum in, June, 58–59.
Synfuels, saga of synthetic rubber, April, 31–36.
Technology, transfer of, May, 43–47.
Test ban, comprehensive: laser fusion and, Dec., 34–38; as SALT substitute, Dec., 30–33.
Third World: agricultural policies in, Jan., 58–61; development of science and technology in, Sept., 35–38; economics of being poor, Nov., 32–37; nuclear energy for, March, 36–43; obstacles to development in, Dec., 12–14; scientists in, Feb., 17–22; transfer of science and technology to, May, 43–47.
Three Mile Island accident: impact of, Jan., 17–32; Kemeny Commission report on, Jan., 20–31.
Titan missile, mishap in Arkansas, Nov., 4.
Trident, Britain buys, Nov., 26–31.
Trinity test, reminiscence of, June, 19–22.
United Kingdom: defense policy of, Nov., 26–31; fast breeder reactor program in, Nov., 5–7; Trident decision, Nov., 26–31.
U.N. Conference on Prohibitions or Restrictions of Use of Certain Convetional Weapons, Feb., 5–6 *passim.*
U.N. Conference on Science and Technology for Development (UNCSTD), May, 48–51.
United States: cost comparison of U.S. and Soviet ICBM silo kills, June, 29; effectiveness of strategic forces of, June, 28–33; modernization of European missiles, Oct., 27; R&D in, Nov., 49–50; science and technology policy, April, 13–16 *passim;* scientific exchanges with Soviet Union and, June, 1.
U.S. presidential election, Dec., 4; election thoughts, Oct., 11–12; energy, defense and foreign policy platform of Citizens Party, Sept., 25–28; position of Carter, Reagan, and Anderson on arms control, defense and energy and science policy, Oct., 13–19.
War, laws of, Feb., 5–6.
Washington, letter from, April 13–16; May, 15–18.
Wastes, nuclear: Association for Geneva Appeal on, Dec., 59; Pacific paradise or nuclear nightmare, Dec., 24–29; public participation in debate on disposal of, June, 44–48; storage of in Pacific, Nov., 62–63.
Weapons, biological: review conference on 1972 convention, June, 8–10 *passim.*
Weapons, chemical: history of efforts to control, Feb., 5–6; unresolved horror, June, 8–10.
Weapons, conventional: laws of war and, Feb., 5–6; U.N. conference on prohibition of certain, Feb., 5–6.
Weapons, nuclear: European theater, Sept., 13; Oct., 32–37; foreign students and proliferation of, March, 25–30; human fallibility and, Nov., 15–20; ICBM vulnerability and MX, Nov., 21–25; modernization of NATO and Soviet, Oct. 25–37; outlawing of, Dec., 6–7; Pakistan as next member of nuclear club, Jan., 11–16; personnel removed from access to, Nov., 15–20; presidential directive #59 and, Nov., 63–64; reactors and Jan., 38–42; Titan mishap in Arkansas, Nov., 4; U.S. policies counterproductive, Jan., 43–48; in Western Europe, March, 8–10; April, 4–6; April, 55–56; when and why, April, 42–45. *See also* MX, Pershing II, Proliferation, and Trident.
Weapons procurement, scientists and, June, 41–43.
